6th Annual Conference of ECMO Society of India &
2nd Annual Conference of South West Asia Chapter of Extracorporeal Life Support Organization

Collaborative Societies
Indian Association of Cardiovascular and Thoracic Surgeons (IACTS)
Indian Association of Cardiovascular Thoracic Anaesthesiologists (IACTA)
Indian Society of Extra Corporeal Technology (ISECT)

Dates:
6th - 7th and 8th Feb - 2015

Venue:
Harold Varmus Auditorium
7th Floor, Mazumdar Shaw Medical Center, Narayana Health City,
Bangalore -560 099. India
**SWAC ELSO**

South West Asia Chapter (SWAC) is one of the five regional bodies of Extracorporeal Life Support Organization (ELSO). It is a joint effort of ELSO organization and Ecmo Society of India (ESOI). The sole purpose of the entire gamut is purely education and research. Both the organizations are primarily targeting promotion of science of Extracorporeal membrane oxygenation (ECMO). The present scope of these organizations is to share their experience and wisdom with others. Since ECMO is a difficult science, it is necessary to learn from other mistakes. So, within the boundries of UNCONTROVERSIAL and NON INTERFERENCE, THE IMMEDIATE TASK FOR ELSO, SWAC AND ESOI, IS TO MAINTAIN A CENTRAL DATABASE REGISTRY OF EVERY ECMO AT ALL ECMO CENTRES. Thus meticulous efforts must be put into reporting and collecting data of episodes and events during one and all ECMO runs.

**SWAC -MEMBER COUNTRIES**

The formation of regional bodies is based on socio geographic pattern across the globe, and is an effort to decrease the communication gap and improve skills and awareness among fellow professionals.
INVITATION

The main aim behind this regional conference is to carry the torch of ECMO beyond the borders of Indian subcontinent. We have seen the fragrance of mutual cooperation in SAARC countries. And looking at the similar socioeconomic pattern and medical facilities in West Asia, we request one and all to participate and become a member of the South West Asia chapter of ELSO. Intensivist and medical professionals of all hospitals in the countries mentioned below in the global maps are invited and requested to join the SWAC ELSO chapter. You are invited to join the Sixth ECMO training and workshop and second SWAC ELSO conference to get a general idea about ECMO. Hoping your earnest attention and enthusiastic participation at Narayan Health City, Bangalore on 6th, 7th & 8th Feb 2015.

Sixth Annual ECMO Conference and Workshop

Over the years, since 2010, gradual increase in interest and awareness of ECMO science has led us to make annual national ECMO training program more frequent. Now, in collaboration of regional ELSO conference with more than 15 international speakers we hope to have a gala fiesta on ECMOISM from stalwarts of ECMO from various parts of the globe.
